

## DISPLAY TESTING

The following pages need to be checked for basic display issues and completion of content carry-over. In addition to the index pages for these sites, a representative sampling of inside pages/subsections needs to be checked (at least one page per subsection is recommended). Please test pages based on this criteria:

- All links work correctly
- All images display correctly
- Server-side includes are being read on all pages (SSI errors are denoted by the warning [an error occurred while processing this directive] )
- SCIFI.COM header with 468x60 banner appears at the top of each page
- Interior pages with 120x600, 120x240 or 300x250 ad spots are displaying ads
- All subsections/pages have physically been ported over
- Pages with embedded BBoard content (index pages of most show sites) are pulling posts correctly
- Pages with embedded Schedulebot data ("Upcoming Episodes" – index pages of most show sites) are pulling data correctly
- No other layout issues were created during migration

## FUNCTIONALITY TESTING

In addition to the basic display testing outlined above, the following pages need to be tested for more complex functionality. Needed testing is outlined below.

<http://192.168.8.141/>

Test newsletter sign-up and functionality of the main feature piece (i.e. days of the week load, flash piece is functioning)

<http://192.168.8.141/scifiwire/>

Test poll.

<http://192.168.8.141/schedulebot/>

Test that search function is still working by show title, feed, date.

<http://192.168.8.141/chat/>

Test that chat application still launches and functions.

<http://192.168.8.141/bboard/>

View a sampling of show-related pages and ensure that logo images have not broken. (Best to reach BBoard pages by linking from the show sites themselves.)

<http://192.168.8.141/webguide/>

Test that search function and "Submit a Site" form are still working.

<http://192.168.8.141/events/>

Test view by month, day, week, list, what's new, and category. Test search function, "Submit an event," and "Print this page" to ensure all are working properly.

<http://192.168.8.141/scifimag/>

Test that secure server is functioning correctly. Test subscription form to ensure it's still working.

<http://192.168.8.141/vanhelsing/sweepstake/>

Test sweepstakes entry to ensure it's still working.

<http://search.scifi.com/>

Test search function.

<http://192.168.8.141/screengrab/startcaption.cgi>

Check to make sure screengrab is running without problems.

<http://192.168.8.141/sfw/>

Test newsletter signup and search function.

<http://192.168.8.141/sfw/standing/suggest.html>

Test that submission form is working properly.

<http://192.168.8.141/members/>

Test that registration form is still working for new member signup. Test "Delete," "Edit Preferences," and "Lost Password" functions.

<http://192.168.8.141/mindprobe/>

Test that game is functioning.

<http://192.168.8.141/tremors/game/>

Test that game is functioning.

<http://192.168.8.141/battlestar/game/>

Test that game is functioning.

<http://192.168.8.141/chichian/game/>

Test that game is functioning.

<http://192.168.8.141/battlestar/tour/>

Test that Quicktime VR is working.

<http://192.168.8.141/battlestar/downloads/screensavers/send.html>

Test that "Send to a Friend" function is working.

<http://192.168.8.141/madmadhouse/downloads/qtvr.html>

Test that Quicktime VRs are working.

<http://192.168.8.141/madmadhouse/downloads/ecards/>

Test that e-cards are functioning properly.

<http://192.168.8.141/tremors/postcards/>

Test that e-cards are functioning properly.

<http://192.168.8.141/xfiles/downloads/>

Test that Trading Cards are functioning properly.

<http://192.168.8.141/tripping/downloads/ecards/>

Test that e-cards are functioning properly.

<http://192.168.8.141/atlantis/downloads/ecards/>

Test that e-cards are functioning properly.

<http://192.168.8.141/stargate/downloads/qtvr.html>

Test that Quicktime VR is working.

<http://192.168.8.141/stargate/downloads/postcards/>

Test that e-cards are functioning properly.

## FLASH TESTING

The following sections of the site have Flash components that call outside files. While embedding issues are unlikely, please test the sites below to ensure that the Flash itself is fully functional. These sites should also go through the basic display testing that has been outlined in this document.
